

# Transportation

- In my mystery country the main forms of transportation are boats, trains, buses, and rickshaws.
- The buses are typically so full of people that passengers will actually ride on the top or on the outside of the bus.
- A rickshaw is a bicycle cart pulled by a man. They are sometimes decorated with famous people.
- There are almost 1/2 a million rickshaws in use in the cities of my country.

# Landscape and Climate

- The Seasons of my country:
  - March - June: Hot Humid Summer
  - June - October: Monsoon Season
  - October - March: Winter Season
- The coldest month of the year in my country is January, with an average temperature of 78 degrees.
- My country's landscape is very fertile due to its tropical climate, but flooded land is a major problem.
- In 1998 2/3 of my country was under water.
