

Living Conditions

13

- Life in my country is pretty tough for most people.
- The typical American makes more money in two weeks than the average person in my country makes in a year.
- Only 3 out of 1,000 people own a motorized vehicle.
- If you live in the city, you likely live in a crowded, run-down apartment building.

My Country's Flag

- The red circle on my flag represents the rising sun and the lives that were sacrificed to achieve independence.
- The green background of my country's flag represents the green and fertile land of my country.
